Digitals and Storage Policy

When will my photos be ready?

Typical photo processing time is 2 weeks. After that time, an online image viewing gallery will be posted and you will be emailed a link to access this gallery. Your gallery will remain up for a two week period only. During this time you can purchase prints, digitals and other products. If you need your gallery posted for an additional length of time, due to the cost of online storage, there is a \$50 archiving fee that will be charged to your account. If you make a print purchase within this first month, the \$50 fee will be applied toward your total print purchase, however if you fail to purchase anything, the \$50 is non-refundable.

How long do you keep my images in storage?

Sometimes clients want piece of mind that I will have images in storage, just in case they have a hard drive crash or something happens to their image cd. Because of space restrictions, I guarantee to have full galleries who have paid the archiving fee for a time period up to one year. All other clients who have purchased digitals or prints also have a time period of one year for the digital files that have been purchased. In rare cases I may have some clients files for longer (up to two years), however this is not guaranteed, so please make sure you immediately download your images and back them up to a second cd or storage device.
